Berwin Leighton Paisner, UK Law Firm of the Year 2005, Upgrades to EOS.Web® Enterprise

Top-ranked London law firm selects EOS.Web Enterprise to provide better access to information for their 940 employees

(Carlsbad, CA – August 11, 2005) Market leader EOS International announces that Berwin Leighton Paisner (BLP), a full-service London, UK law firm with 940 employees, including 480 lawyers and 140 partners, has upgraded their in-house legal library solution to EOS.Web Enterprise. Microsoft .Net and MARC standards-based EOS.Web Enterprise has the functionality a multi-site law library needs for multi-part, unscheduled serial subscription checkin, thus making it easy to control the receipt of journals, series, and supplements regardless of publishing schedule or location.

BLP acts for a wide range of UK and international corporate organizations, financial institutions, and government bodies across a variety of markets. The firm operates in four core practice areas: Corporate, Real Estate, Finance, and Litigation & Dispute Resolution, with a stated expertise in 46 distinct areas. They operate through an international alliance with offices in Brussels, New York, Paris, Milan, and Rome.

A recognized technology innovator within the legal sector, the firm's consistently ground-breaking use of IT technologies has brought many prestigious national awards and nominations. In 2004 BLP was voted Law firm of the Year at The Lawyer Awards, BLP IT Director Janet Day was named IT Director of the Year by the British Computer Society (BCS), and BLP recently won the UK Law Firm of the Year for 2005 award at the Chambers Global Award ceremony.

"It is an honor for EOS.Web Enterprise to be chosen as the legal library solution of choice by Berwin Leighton Paisner," states EOS CEO Tony Saadat. "Such a choice recognizes the commitment EOS has made to delivering the legal library solution of choice to the UK legal marketplace."
