WHEATON FRANCISCAN HEALTHCARE SELECTS EOS INTERNATIONAL

Non-Profit Hospital Provides Care to Patients from Five Counties in Wisconsin and Iowa

(Carlsbad, CA – April 1, 2008) Leading library services and knowledge management company, EOS International, announced Wheaton Franciscan Healthcare (WFH) successfully implemented their new EOS.Web solution. WFH libraries house the print and electronic collections of four large hospitals in Southeastern Wisconsin and one in Iowa.

The new EOS.Web system allows WFH to share their library resources with satellite facilities that do not house information collections. The EOS.Web OPAC and services make these resources accessible through a single webpage available to all associates in the system. “The EOS system allowed us to provide special links on the library webpage to featured authors in the Wheaton Franciscan Healthcare system, and their works,” stated Mary Pat Gage, RN BSN MLIS, Head of Library Services at WFH, St. Joseph.

“We are proud that the new EOS.Web solution at Wheaton Franciscan Healthcare allows the broader use and distribution of important medical information to an entire community of dedicated health professionals,” stated Tony Saadat, CEO of EOS International. “Our goal at EOS is to make sure this happens in other hospital groups and healthcare provider networks.”

About EOS International

EOS International is a leading global, world-class library information and knowledge management software and services provider with a client base of over 3,000 special libraries. A client-driven company that has earned the top customer satisfaction award for the past three years and earned a nomination for the Computerworld Smithsonian award, EOS library automation software products (EOS.Web[®] Express, EOS.Web[®] Enterprise, and the SaaS EOS e-Library Service[®]) serve the stringent knowledge and content management needs of corporate, legal, medical, government and special libraries of all sizes. EOS International can be found online at <http://www.eosintl.com>.
