EOS INTERNATIONAL TO ATTEND COMPUTERS IN LIBRARIES CONFERENCE
EOS will exhibit and host two events at this year's CIL show

(Carlsbad, CA – March 8, 2010) EOS International announced that it will exhibit at this year's Computer's in Libraries (CIL) conference, taking place in Arlington, VA, April 12 – 14, 2010. In addition to being exhibitors, EOS will also host a Luncheon Seminar and Client Reception on Monday, April 12th.

The EOS International Luncheon Seminar will take place at 12:15pm in the Tidewater Room of the Hyatt Regency Crystal City Hotel, and will feature special guest speaker and client: **Sandra Crumlish, Library Manager, St. Jude Medical, Sylmar, CA.** This event is designed for individuals interested in learning more about EOS International and the products and services it has to offer to special, medical, corporate, law, government, and academic libraries. EOS will also host a Client Reception specifically for clients to meet for an evening of refreshments and discussions about the latest enhancements to their EOS.Web products, as well as how EOS.Web is helping to improve their library's capabilities.

Vice President of Global Sales and Marketing Salvatore Provenza states, "CIL is a conference we are excited to attend each year. We traditionally have very positive turn-outs at our events. As a matter of fact, last year, we had over 100 people attend our Luncheon Seminar and nearly thirty clients attended the Client Reception. Attending CIL gives us the opportunity to meet with our prospects, partners, and clients in the Washington, DC area, so that we can better understand their needs and share the latest capabilities of EOS.Web."

EOS International will also exhibit at Medical Library Association, Special Library Association, American Library Association, and American Association of Law Libraries conferences in 2010. More details regarding these events will follow.

About EOS International

EOS International is a leading world-class library information and knowledge management software and services provider with an impressive client base of libraries across the globe. EOS International is a client-driven company that has earned the top customer satisfaction award for the past three years and earned a nomination for the Computerworld Smithsonian award. EOS library automation software products (EOS.Web Express, EOS.Web Enterprise, EOS.Web Academic, and the SaaS e-Library Service) serve the stringent knowledge and content management needs of corporate, legal, medical, government, and academic libraries of all sizes.
