EOS International to Host French & UK User Group Meetings

(Carlsbad, CA – June 6, 2011) EOS International, a leader in cloud computing library automation software, announced that it will host French & UK User Group Meetings in June 2011.

The EOS International French User Group Meeting will take place on Wednesday, June 22, 2011 from 10:00a.m- 12:30p.m at the Marriott Rive Gauche, Paris. The UK User Group Meeting will take place on Tuesday, June 28, 2011 from 10:00a.m- 12:30p.m at the Royal United Services Institute Library, London.

“The User Group meetings will provide a great opportunity for us to meet with our clients in the UK and France,” says Salvatore Provenza, Vice President of Global Sales and Marketing. *“As an international software company with installations in over 50 countries, we value input from all our clients.”*

The highlight of this year’s meeting will be a demonstration of the new Web OPAC Discovery product. Discovery is a revolutionary product that allows corporate, legal, medical, government, academic, digital, and special libraries to customize the capability as well as look and feel of their OPAC. In June 2011, EOS will release a mobile device version of the application along with a flexible template editor. The new mobile format allows patrons to access the library’s OPAC through iPhones, Androids, and BlackBerries.
