EOS INTERNATIONAL TO ATTEND COMPUTERS IN LIBRARIES CONFERENCE
EOS will exhibit and host two events at this year's CIL Event

(Carlsbad, CA – March 01, 2011) EOS International announced that it will exhibit at this year's Computers in Libraries (CIL) conference, taking place in Washington, DC, March 21 – 23, 2011. In addition to being exhibitors, EOS will also host a Luncheon Seminar and Client Reception on Tuesday, March 22, 2011.

The EOS International Luncheon Seminar will take place at 12:00 p.m. in the Georgetown West Room of the Washington Hilton. This event is designed for individuals interested in learning more about EOS International and the products and services it has to offer to special, medical, corporate, law, government, academic, and digital libraries. EOS will also host an EOS Client Reception for an evening of refreshments and discussions about the latest enhancements to their EOS.Web products. The Client Reception will take place at 6:00 p.m in the Georgetown West Room of the Washington Hilton.

Vice President of Global Sales and Marketing Salvatore Provenza states, "CIL is a conference we are excited to attend each year. We traditionally have very positive turn-outs at our events. As a matter of fact, last year, we had over 130 people attend our Luncheon Seminar and nearly thirty clients attended the Client Reception. Attending CIL gives us the opportunity to meet with our prospects, partners, and clients in the Washington, DC area, so that we can better understand their needs and share the latest capabilities of EOS.Web, the best value in library automation today."

EOS International will also exhibit at Medical Library Association, Special Library Association, American Library Association, and American Association of Law Libraries conferences in 2011. More details regarding these events will follow.
